Discovery & inventory

ETHIKCORP / SUPERBRAIN PM / CLIENT WORKING TEMPLATE

Purpose: establish the people, source systems, access boundaries and approval decisions needed before any collection or GBrain import. This is a blank client template. Suggested owners, examples and locations come from the setup reference and require Ethikcorp confirmation.

How to return it: complete the editable Word file, keep a copy in Ethikcorp's approved private project workspace, and share it only through the client-approved route. Do not put passwords, API keys, HR records, client contracts or other sensitive files into this form. Record their system/location and approval path instead.

1. Project ownership and scope

Executive sponsor	[Client to complete]	**Project owner**	[Client to complete]
Privacy lead	[Client to complete]	**Security / IT lead**	[Client to complete]
Pilot departments	[Client to complete]	**Target decision date**	[Client to complete]
Business goal	[Client to complete]	**Baseline measure**	[Client to complete]
Working location	[Client to complete]	**Document version / date**	[Client to complete]

Client action: name the person with authority to approve the source register and the departmental leads who can identify authoritative material. Define the first pilot departments and the outcomes to measure; leave productivity claims unfilled until a baseline exists.

2. Hosting, access and collection boundaries

Data residency rule	[Client to complete]	**Prohibited egress**	[Client to complete]
Allowed storage	[Client to complete]	**Allowed model route**	[Client to complete]
Identity / SSO owner	[Client to complete]	**Role groups**	[Client to complete]
Client boundaries	[Client to complete]	**Engagement boundaries**	[Client to complete]
Restricted categories	[Client to complete]	**Retention owner**	[Client to complete]
Approved transfer route	[Client to complete]	**GitHub decision**	[Client to complete]

Client action: confirm which data may enter the small private GitHub pilot, which remains metadata-only, which requires a separate UAE-controlled transfer path, and who approves each route. A private repository does not by itself establish UAE residency.

3. Eighteen-source register

Complete every category. For an absent or excluded source, record the decision and a named owner. The suggested lead, examples and location are starting points from the reference, not claims that Ethikcorp has supplied or connected the source.

01 Company profile & services

SUGGESTED LEAD Marketing

FIND IT Website pages, service sheets, BizScan, methodology. Usually: ethikcorp.com, Drive. Open the current website and Marketing Drive folder; copy the canonical page URLs and final service sheets.

Named owner	[Client to complete]	**System / exact URL**	[Client to complete]
Decision	[In scope / context / excluded]	**Current version**	[Client to complete]
Audience / ACL	[Client to complete]	**Sensitivity**	[Client to complete]
Format / language	[Client to complete]	**Refresh cadence**	[Client to complete]
Rights / consent	[Client to complete]	**Approval reference**	[Client to complete]

Owner notes, duplicates, superseded copies or exclusion reason: [Client to complete]

02 Policies & handbooks

SUGGESTED LEAD HR & Talent

FIND IT HR handbook, leave, expenses, code of conduct, IT/data policy. Usually: Drive / Docs. Ask the policy owner for the current published folder or Docs links, not staff copies.

Named owner	[Client to complete]	**System / exact URL**	[Client to complete]
Decision	[In scope / context / excluded]	**Current version**	[Client to complete]
Audience / ACL	[Client to complete]	**Sensitivity**	[Client to complete]
Format / language	[Client to complete]	**Refresh cadence**	[Client to complete]
Rights / consent	[Client to complete]	**Approval reference**	[Client to complete]

Owner notes, duplicates, superseded copies or exclusion reason: [Client to complete]

03 SOPs & checklists

SUGGESTED LEAD Operations

FIND IT Programme delivery SOP, venue checklist, onboarding steps. Usually: Drive, ClickUp docs. Open the Operations shared drive and ClickUp Docs; identify the active process owner.

Named owner	[Client to complete]	**System / exact URL**	[Client to complete]
Decision	[In scope / context / excluded]	**Current version**	[Client to complete]
Audience / ACL	[Client to complete]	**Sensitivity**	[Client to complete]
Format / language	[Client to complete]	**Refresh cadence**	[Client to complete]
Rights / consent	[Client to complete]	**Approval reference**	[Client to complete]

Owner notes, duplicates, superseded copies or exclusion reason: [Client to complete]

04 Proposals & pitch decks

SUGGESTED LEAD Sales & BD

FIND IT Past proposals, decks, scopes, won/lost notes. Usually: Drive, email attachments. Ask Sales for the approved proposal library and final sent versions.

Named owner	[Client to complete]	**System / exact URL**	[Client to complete]
Decision	[In scope / context / excluded]	**Current version**	[Client to complete]
Audience / ACL	[Client to complete]	**Sensitivity**	[Client to complete]
Format / language	[Client to complete]	**Refresh cadence**	[Client to complete]
Rights / consent	[Client to complete]	**Approval reference**	[Client to complete]

Owner notes, duplicates, superseded copies or exclusion reason: [Client to complete]

05 Contracts & NDAs

SUGGESTED LEAD Legal & Compliance

FIND IT Signed contracts, SOWs, NDAs, clause library. Usually: Drive legal folder, email. Legal identifies the signed repository and clause owner.

Named owner	[Client to complete]	**System / exact URL**	[Client to complete]
Decision	[In scope / context / excluded]	**Current version**	[Client to complete]
Audience / ACL	[Client to complete]	**Sensitivity**	[Client to complete]
Format / language	[Client to complete]	**Refresh cadence**	[Client to complete]
Rights / consent	[Client to complete]	**Approval reference**	[Client to complete]

Owner notes, duplicates, superseded copies or exclusion reason: [Client to complete]

06 CRM / pipeline exports

SUGGESTED LEAD Sales & BD

FIND IT Leads, contacts, stages, deal values. Usually: CRM, spreadsheets, WhatsApp Business. Ask the CRM administrator for object names, field dictionary and read-only scope.

Named owner	[Client to complete]	**System / exact URL**	[Client to complete]
Decision	[In scope / context / excluded]	**Current version**	[Client to complete]
Audience / ACL	[Client to complete]	**Sensitivity**	[Client to complete]
Format / language	[Client to complete]	**Refresh cadence**	[Client to complete]
Rights / consent	[Client to complete]	**Approval reference**	[Client to complete]

Owner notes, duplicates, superseded copies or exclusion reason: [Client to complete]

07 Emails

SUGGESTED LEAD Each department

FIND IT Client threads, decisions, approvals. Usually: Gmail / Outlook. Owners identify specific decision threads by subject/date rather than giving mailbox access.

Named owner	[Client to complete]	**System / exact URL**	[Client to complete]
Decision	[In scope / context / excluded]	**Current version**	[Client to complete]
Audience / ACL	[Client to complete]	**Sensitivity**	[Client to complete]
Format / language	[Client to complete]	**Refresh cadence**	[Client to complete]
Rights / consent	[Client to complete]	**Approval reference**	[Client to complete]

Owner notes, duplicates, superseded copies or exclusion reason: [Client to complete]

08 Invoices & financials

SUGGESTED LEAD Finance

FIND IT Invoices, expenses, P&L, budgets, rate cards. Usually: Accounting tool, spreadsheets. Finance names the accounting system and authorized report owner.

Named owner	[Client to complete]	**System / exact URL**	[Client to complete]
Decision	[In scope / context / excluded]	**Current version**	[Client to complete]
Audience / ACL	[Client to complete]	**Sensitivity**	[Client to complete]
Format / language	[Client to complete]	**Refresh cadence**	[Client to complete]
Rights / consent	[Client to complete]	**Approval reference**	[Client to complete]

Owner notes, duplicates, superseded copies or exclusion reason: [Client to complete]

09 HR & people records

SUGGESTED LEAD HR & Talent

FIND IT CVs, contracts, payroll, visas, appraisals. Usually: HR system, Drive. HR confirms the protected system and whether any anonymous role profile is useful.

Named owner	[Client to complete]	**System / exact URL**	[Client to complete]
Decision	[In scope / context / excluded]	**Current version**	[Client to complete]
Audience / ACL	[Client to complete]	**Sensitivity**	[Client to complete]
Format / language	[Client to complete]	**Refresh cadence**	[Client to complete]
Rights / consent	[Client to complete]	**Approval reference**	[Client to complete]

Owner notes, duplicates, superseded copies or exclusion reason: [Client to complete]

10 Project & delivery files

SUGGESTED LEAD Consulting Delivery

FIND IT TNA results, session plans, evaluation reports, ROI reports. Usually: Drive, ClickUp. Project lead identifies final client-approved delivery folders.

Named owner	[Client to complete]	**System / exact URL**	[Client to complete]
Decision	[In scope / context / excluded]	**Current version**	[Client to complete]
Audience / ACL	[Client to complete]	**Sensitivity**	[Client to complete]
Format / language	[Client to complete]	**Refresh cadence**	[Client to complete]
Rights / consent	[Client to complete]	**Approval reference**	[Client to complete]

Owner notes, duplicates, superseded copies or exclusion reason: [Client to complete]

11 Tasks & status

SUGGESTED LEAD Operations

FIND IT ClickUp tasks, portal tasks, status JSON. Usually: ClickUp, portal. Ask the ClickUp/portal admin for list IDs, statuses and an export of non-client-sensitive tasks.

Named owner	[Client to complete]	**System / exact URL**	[Client to complete]
Decision	[In scope / context / excluded]	**Current version**	[Client to complete]
Audience / ACL	[Client to complete]	**Sensitivity**	[Client to complete]
Format / language	[Client to complete]	**Refresh cadence**	[Client to complete]
Rights / consent	[Client to complete]	**Approval reference**	[Client to complete]

Owner notes, duplicates, superseded copies or exclusion reason: [Client to complete]

12 Meeting notes & minutes

SUGGESTED LEAD Operations

FIND IT Leadership notes, client call notes, action items. Usually: Docs, email, recordings. Locate signed minutes or the meeting owner's final decision log.

Named owner	[Client to complete]	**System / exact URL**	[Client to complete]
Decision	[In scope / context / excluded]	**Current version**	[Client to complete]
Audience / ACL	[Client to complete]	**Sensitivity**	[Client to complete]
Format / language	[Client to complete]	**Refresh cadence**	[Client to complete]
Rights / consent	[Client to complete]	**Approval reference**	[Client to complete]

Owner notes, duplicates, superseded copies or exclusion reason: [Client to complete]

13 Chats

SUGGESTED LEAD Each department

FIND IT Internal chat, WhatsApp client chats. Usually: ClickUp chat, WhatsApp. Ask owners for already-approved decision summaries, not full chat exports.

Named owner	[Client to complete]	**System / exact URL**	[Client to complete]
Decision	[In scope / context / excluded]	**Current version**	[Client to complete]
Audience / ACL	[Client to complete]	**Sensitivity**	[Client to complete]
Format / language	[Client to complete]	**Refresh cadence**	[Client to complete]
Rights / consent	[Client to complete]	**Approval reference**	[Client to complete]

Owner notes, duplicates, superseded copies or exclusion reason: [Client to complete]

14 Training material

SUGGESTED LEAD Consulting Delivery

FIND IT Slide decks, workbooks, gamified modules, trainer guides. Usually: Drive, LMS. Locate the final LMS course or trainer master folder and rights holder.

Named owner	[Client to complete]	**System / exact URL**	[Client to complete]
Decision	[In scope / context / excluded]	**Current version**	[Client to complete]
Audience / ACL	[Client to complete]	**Sensitivity**	[Client to complete]
Format / language	[Client to complete]	**Refresh cadence**	[Client to complete]
Rights / consent	[Client to complete]	**Approval reference**	[Client to complete]

Owner notes, duplicates, superseded copies or exclusion reason: [Client to complete]

15 Client feedback & testimonials

SUGGESTED LEAD Client Success

FIND IT Surveys, testimonials, permissions. Usually: Forms, email. Client Success finds the approved testimonial register and permission records.

Named owner	[Client to complete]	**System / exact URL**	[Client to complete]
Decision	[In scope / context / excluded]	**Current version**	[Client to complete]
Audience / ACL	[Client to complete]	**Sensitivity**	[Client to complete]
Format / language	[Client to complete]	**Refresh cadence**	[Client to complete]
Rights / consent	[Client to complete]	**Approval reference**	[Client to complete]

Owner notes, duplicates, superseded copies or exclusion reason: [Client to complete]

16 AI agent assets

SUGGESTED LEAD Technology & AI

FIND IT Call scripts, prompts, specs, test logs. Usually: Repos, Drive. Find the versioned repo or approved scripts folder; distinguish draft from released.

Named owner	[Client to complete]	**System / exact URL**	[Client to complete]
Decision	[In scope / context / excluded]	**Current version**	[Client to complete]
Audience / ACL	[Client to complete]	**Sensitivity**	[Client to complete]
Format / language	[Client to complete]	**Refresh cadence**	[Client to complete]
Rights / consent	[Client to complete]	**Approval reference**	[Client to complete]

Owner notes, duplicates, superseded copies or exclusion reason: [Client to complete]

17 Marketing assets

SUGGESTED LEAD Marketing

FIND IT Blog posts, social posts, brand guide, approved claims. Usually: Website, Canva, Drive. Find the brand source folder and published asset URLs; ask for claim expiry dates.

Named owner	[Client to complete]	**System / exact URL**	[Client to complete]
Decision	[In scope / context / excluded]	**Current version**	[Client to complete]
Audience / ACL	[Client to complete]	**Sensitivity**	[Client to complete]
Format / language	[Client to complete]	**Refresh cadence**	[Client to complete]
Rights / consent	[Client to complete]	**Approval reference**	[Client to complete]

Owner notes, duplicates, superseded copies or exclusion reason: [Client to complete]

18 Legal & registration

SUGGESTED LEAD Legal & Compliance

FIND IT Trade licence, legal entity, TRN, insurance. Usually: Drive restricted folder. Legal identifies the canonical corporate records folder and current validity dates.

Named owner	[Client to complete]	**System / exact URL**	[Client to complete]
Decision	[In scope / context / excluded]	**Current version**	[Client to complete]
Audience / ACL	[Client to complete]	**Sensitivity**	[Client to complete]
Format / language	[Client to complete]	**Refresh cadence**	[Client to complete]
Rights / consent	[Client to complete]	**Approval reference**	[Client to complete]

Owner notes, duplicates, superseded copies or exclusion reason: [Client to complete]

4. Authority and access decisions

Identify the system of record for each included source. Mark drafts and superseded versions. Specify any records that must be isolated by department, client or engagement before retrieval. Public-facing material can still require owner approval for accuracy and rights.

Authority reviewer	[Client to complete]	**Access reviewer**	[Client to complete]
Version rule	[Client to complete]	**Deletion owner**	[Client to complete]
HR / payroll	[Exclude or separately approve]	**Finance / legal**	[Separate scope]
Client material	[Engagement-specific]	**Chat / email**	[Curated decisions only]

5. Client handoff checklist

[ ] Executive sponsor, project owner and departmental source leads are named.
[ ] All 18 categories have an actual owner and a location or an explicit absence/exclusion decision.
[ ] Current authoritative versions, drafts, duplicates and superseded copies are marked.
[ ] Audience, department, client and engagement access boundaries are recorded.
[ ] Sensitivity, rights, consent, retention and residency restrictions are reviewed.
[ ] Approved collection route and reviewer are recorded for each in-scope source.
[ ] No credentials or sensitive source files are attached to this template.
[ ] Sponsor, privacy/security and source owners approve the register before collection.

Sponsor sign-off	[Client to complete]	**Date**	[Client to complete]
Privacy/ security	[Client to complete]	**Date**	[Client to complete]
Source register ID	[Client to complete]	**Next review date**	[Client to complete]
